MEMORANDUM FOR: 

SUBJECT: Dual Retirement Deductions

1. In the discussion yesterday on the above recommendations, 2c was accepted which, in effect, is continuance of the present system with certain steps to assist security.

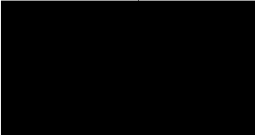

2. Will you draft an appropriate regulation and procedures guide? As I understand it, Management plans to separate regulations from procedures for unvouchered funds, and I suggest you try a regulation saying that dual retirement deductions will be made (perhaps in Section 5 of the CFR's) and then put the procedures and security aspects in draft as the procedural annex to the CFR's.
